DEDICATED SERVER - AGILE XXL3

The server designed for excellence
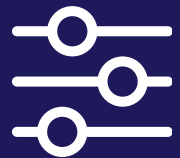

An uncompromising server with extreme power

Equipped with an **AMD Ryzen™ 9 5950X** processor with 16 cores and 32 threads, it captures the ultimate power of the AGILE range. Designed to handle the most intensive workloads, it combines **extreme performance** with **computing stability** to support the most demanding projects.

With 64 GB of DDR4 memory, this server ensures **total fluidity** even in the heaviest multitasking environments, making it a **reliable solution** for professionals seeking **sustainable performance**.

Featuring **two 1 TB NVMe disks**, it delivers both **blazing speed** and **high storage capacity**. Perfect for hosting critical applications, managing massive databases, or building complex virtualized infrastructures, it guarantees **ultra-fast response times** and **optimal efficiency**.

A PREMIUM AND HIGH-PERFORMANCE SERVER

Several options are available

Optimize the Agile XXL3 to suit your needs!

The **Agile XXL3** has been designed to **adapt to your constraints**, both in terms of its **power capacity** and its **storage capabilities.**
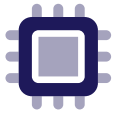

A number of options allow you to configure the Agile XXL3 so that it fully meets your expectations:

- A RAM option to double its capacity and thus increase the speed and the number of simultaneous files and applications,
- and another option for adding 2x 16 TB of storage, massively increasing the amount of data your Agile XXL3 can handle.

CPU

- **AMD Ryzen™ 9 5950X** - 16 cores / 32 threads (Zen3)
- Base frequency @3,4 Ghz (turbo max: 4,9 GHz)
- Multithread scoring: 45 681 points (*source: CPU Benchmark*)
- TDP: 105W

RAM

- **64 GB DDR4** - 4 slots

Option : 128 GB DDR4

STORAGE

- **2 x 1 TB** SSD NVMe

Option : + 2 x 16 TB HDD S-ATA

RAID

- RAID software 1

NETWORK

- 1 Gbps
