## DEDICATED SERVER - REGEN S1

A premium re-engineered server, designed for business use

### Performance through a Circular IT approach

The **REGEN S1** combines **performance, reasonable budget** and **sustainability**. It provides a reliable dedicated server that is immediately operational and designed to offer a high level of performance for demanding professional uses.

**Robust** and **proven**, it is a perfect solution for deploying lightweight virtualization, hosting an internal technical platform, or strengthening your infrastructure with hardware that is already equipped with key features, available quickly, and designed to last.

**By extending the life cycle** of professional hardware, the **REGEN S1** is part of a **Circular IT** approach that helps limit the use of new equipment and supports your sustainability goals.

## A RE-ENGINEERED AND CUSTOMIZABLE SERVER

Several options are available

### Optimize the REGEN S1 to suit your needs!

The **REGEN S1** has been designed to **adapt to your needs**, both in terms of **power and storage capacity**.

Several options allow you to configure the **REGEN S1** to meet your every need:
